

NASHVILLE, TENNESSEE FIRE DEPARTMENT PUMPER

Outfitted with a booster reel in rear compartment to provide quick, easy access when needed most

Time is of the essence when taking the call. Providing quick and easy access to the right tools is a priority. Nashville's Pumpers contain a rear compartment with roll up door that provides easy access to a booster reel when needed most.

Toyne Tailored EMS storage options provide additional space for the equipment you need

Easy access to compartment storage is a must. Customized EMS storage compartments in the cab allows quick access to emergency equipment needed for safe and efficient response. In addition, Zico helmet brackets and a FireCom intercom system with 5 headsets mean the difference when time is of the essence.

Ample hosebed storage space is necessary to be prepared when the call comes in

The Nashville, TN, Pumpers are outfitted with a low hosebed to allow for easy access. Toyne Tailored hosebed options provide ample storage space for hoses and stokes basket to accommodate firefighters taking the call.

Equipped with the Hale Qmax pump for unmatched reliability and a higher level of performance

The Hale Qmax pump with side mount control panel and Fire Research Pump Boss pressure governor take performance to the next level. The 1500 GPM pumping capacity makes high water flows a reality, and the 6 discharges and two 1.75" crosslays put you in control of every situation.

Toyne Tailored storage options provide you with the right tools, right where you need them

Having the right tools in the right place make the difference when lives are on the line. Rear compartment storage options provide the perfect place to stow away the tools you need. Nashville Pumpers include space in the rear of the apparatus for slide-in ladder, backboard and pike pole storage, ensuring convenient and efficient response.

WELCOME TO THE WORLD OF QUALITY.

Nashville FD
